

Is there a simple solution for some of life's persistent problems?

YES! HEALING REGRESSION THERAPY

Regression therapy employs the retrieval of past /present life memories in order to help remove obstacles of:

- Unexplained and persistent pain in the body
- Depression and anxiety
- Repeated relationship issues
- Constant illness and weakness in health not resolved by modern medicine
- Emotional trauma
- Physical trauma
- Obsessions and compulsive behavior
- Addictions
- Fears and phobias
- Psychic attack

What results can I expect from this treatment?

Using a natural and gentle method, access is gained to lost memories, helping you to integrate previous knowledge, experiences, and understanding into your present life allowing healing to take place.

Many will feel that a "lost part" of their being is restored and they once again can fulfill their destiny and achieve their dreams, unhindered by dormant hidden thoughts and images that have been holding them back either physically, mentally or emotionally. This is called "Soul Retrieval".

This form of regression therapy does NOT employ the use of hypnosis. The therapy is done using crystals placed on chakra points that stimulate the release of Akashic memories, which then can flow through and into the client's own mind without interference from the therapist who acts as the conduit.

How long does it take?

Up to 2 hours, with the client relaxed, comfortable and warm, surrounded by peaceful sounds and dimmed lighting. Aromatherapy is used to add to the ambiance of the treatment.

How many sessions does it take?

Usually one, but can take more depending on the issues and the various layers of "disturbance" present at this time in a person's life. Clients feel great benefit even after a single session.

Is this therapy harmful in anyway?

Absolutely not.....you are surrounded by protective guides and angels at all times, plus a special 'cleansing' procedure is performed before the session, using a time honored technique. You will actually feel lighter and refreshed afterwards!!

"My experience with Susie was very healing. I have suffered from chronic headaches since I was a child, with no real relief, no matter what I did. So much so, that I used Aspirin like candy in an effort to control the pain.....until I had this amazing regression therapy! I now REALLY believe that the root of my pain was due to an accident I suffered in a past life, I saw it clearly. Once that memory was released my headaches stopped completely....amazing! Highly recommend this treatment!" (H.K. Omaha, NE)
